I always knew you'd come along
I waited for you for so long
In fantasies, I've felt your kiss
I knew your tender lips
Would feel like this

(CHORUS)

I've been waiting
For you all of my life
So many times I dreamed
Of holding you tight
And now that you're here
It's all right
I've waited for you all my life

Now that you're here
For me to touch
The need in me becomes too much
The dream that lives inside of me
Tonight, will be reality

(CHORUS) 2X

(I've been waiting for you)
Waited for you all my life
