Love me warm and tender, dear
Love me warm like the
Glow of the morning sun
Love me warm and tender, dear
Love me so just as though
I'm the only one

Kiss me warm and tender, dear
Kiss me strong, kiss me long
Til the end of time
Kiss me warm and tender, dear
Let me know, tell me so
Til the end of time

I'm in heaven in your embrace
See the glow of your angel face
Heaven sings, heaven rings
On your wings, we will fly away

We will fly, you and I
To the sky where
We'll always stay

Love me warm and tender, dear
Take my lips, take my arms
They belong to you
Love me warm and tender, dear
I'm a part of your heart
For my whole life through

Love me warm and tender, dear
Love me warm like the
Glow of the morning sun
Love me warm and tender, dear

Love me so just as though
I'm the only one
