I Believe There Is Nothing Stronger Than Our Love
Paul Anka

~ according to the liner notes in the CD booklet Anka sang solo on this recording, although Odia Coates has vocal parts. The song is not considered a "duet."

I believe there is nothing stronger than our love
I believe there is nothing stronger than our love
When I'm with you Baby
All my worries disappear
Troubles that surround me
Disappear when you are near
When you need my loving
I'll be there
You know
When you need my loving
You know
Where to go

I believe there is nothing stronger than our love
I believe it
I believe there is nothing stronger than our love
I do believe it
I believe there is nothing stronger than our love
Baby I believe it

When I'm full of sadness
Nice to know you're always there
In this world of madness
Nice to know somebody cares
When I need your loving
You'll be there
I know
When I need your loving
I'll know where to go

I believe there is nothing stronger than our love
I believe it

I believe there is nothing stronger than our love
I do believe it
I believe there is nothing stronger than our love
Baby I believe it

When I'm with you Baby
I know you make me feel so good
When I'm with you Baby
You give me what nobody could
When you need my loving
I'll be there
You know
You know
When you need my loving
You know where to go

I believe there is nothing stronger than our love
I believe it
I believe there is nothing stronger than our love
I do believe it
I believe there is nothing stronger than our love
Baby I believe it

I believe there is nothing stronger than our love
I believe it
I believe there is nothing stronger than our love
