Hey, here we go again  
Caught between the sun and rain  
I see the magic in the storm  
You want a world that's safe and warm  
We've been here before  
And here we go again  
I know that I can let you down  
But sometimes baby you're hard to be around  
I want to skate out on thin ice  
You spend a lifetime thinking twice  
But that's ok...  
Just look at what we found!  
Caught between the healing and the pain  
Can fools like us remain  
Together?

Chorus

( Up down, up down, up)  
That's the law of love  
( Up down, up down,  
That's the law in Love Town)  
(We're) Bound by the law of love  
Hey, darlin' don't you cry  
Dark days we'll let them walk on by  
Love holds you underneath its spell  
Then turns your heaven into hell  
But that's alright...  
Next day we can reach the sky  
Baby, when the storm goes out of range  
That's when things can change  
Like the weather  
Repeat chorus
