Last night I lost the best friend I ever had
Last night I lost the best friend I ever had
Well, she gone off and left me, oh, make me feel so
bad

Well, it's early in the morning when my love come
falling down for you
Well, it's early in the morning, baby, when my love
come falling down for you
I want you to tell me, baby, tell me what are we gonna
do

Well, I'll wait till tomorrow, they tell me every day
brings some bottle of change
Well, I'll wait till tomorrow, they tell me every day
brings some bottle of change
Well, I love you, love you baby, honey, ain't it a crying
shame

Last night I lost the best friend I ever had
Last night I lost the best friend I ever had
Well, she gone off and left me, oh, make me feel so
bad
