Baby, all I can feel is the morning sunrise coming on  
Yeah, I can feel all my love coming on  
Yeah, try to remember the long time has passed on by  
Yeah, I'm all alone these days, may we both cry  
Yeah, baby, they're gone

All I can feel is the morning sunrise coming on  
Baby, all I can feel, all my love for you  
Every evening  
Life can be so strong when you say what you feel, yeah  
It's so hard sometimes  
To leave me girl, just please me

Yeah, you wonder  
If you knew love the way you know how  
I believe it's a rough time, baby  
But I know it's the right time, babe  
Yeah, yeah, yeah  
I know it's the right time  
And the right time is now

Yeah, I can feel it coming on  
Yeah, ooh, baby, it's the morning sunrise  
Ooh, all my loving  
And all my love  
All I can feel and all my love is the morning sunrise
