"Live It"

Do you know how it feels
To bow your head and kneel

And feel you connected
With something that's real?

Do you know what I'm saying
When I say that some people are praying
To a God in Heaven
But I wonder if they're listening?

Gotta live it, I, I, I gotta live it!
You say there is a God who loves the world
If you believe it say I, I, I gotta live it!
And let it show all around the world

I hear people saying
To all the people praying
Come down to the valley
Don't stay up on the mountain praying

Live it and walk it and breathe it and talk it and dream it
Receive it, you say that you believe it
