MINOR MIRACLE
music and lyrics by Mike Hudson

What's it take to get to you
Just a minute or a year or two
I try to find a way, but now I see
A minor miracle is all I need

In this condition in this state of heart
Now I find I don't know where to start
You once seemed near
But now you're out on the road
Something inside myself is keeping up hope

A minor miracle is all I need
To get me through the night
To get you to see
When I'm holding your hand
When I'm brushing your cheek
A minor miracle is all that I need

What kind of fool have I been for you
It's like a dream that I couldn't see through
I step outside myself, but still I can't explain
Why I keep running back to you again

It's like a prison, but I want to be here
I get this way every time you come near
We once were close, but now the distance creeps in
What more is left than for us to be friends

I keep on waiting for the magic to begin
It's like I'm living in a world that's pretend
You send me signals
Mixed emotions, dreams disguised
But somehow I find what I need in your eyes
