TIME TO SAY GOODBYE

music and lyrics by Jonathan Dorsey

If you could see yourself the way I see you  
Then you'd understand the things I do  
The fire between us is dying and the embers are black  
There'll be no living a lie  
There'll be no turning back

It's not easy to say  
But you knew there would come a day to say goodbye  
I think it's time for us to fly  
Though it was beautiful for awhile  
I think it's time to say goodbye

The things we do are shadows of a dream  
Our time has come and gone so it would seem  
I know the both of us will remain intact  
I know I gave you my heart, but now I want it back

For what is love when everything inside has died  
And there's nowhere, nowhere to run, nowhere to hide
