"Smolder"

Visit "[Smolder](#)" on MotoLyrics.com

Baby quit your dancing shoes
The Strip is fun, but it aint home
I think I know what you need
A little less neon, a little more me to hold you close

Chorus:

Dance away my cares to night take me back in time
Hold me closer than the darkness over my shoulder
Time leaves lovers behind, so girl tonight
Find the flame and let the ashes smolder

I've known you since long ago
What you like before the shows
Before the lights became our lives
It aint bad, but baby sometimes, I need you to hope

Chorus:

Now I stare out at the bay
The humid air pushing salty waves
While you watch the desert sun
Sinking low waiting for someone to take you away

Chorus:
