Summer's comin', time to dream the day away
And she's so sunny is the girl you met today
Will she make it? Can she take it?
Like to try love, such a shy love

Racket back street leanin' on the wall
She reads a story of her life before it all
Did she give love? Could she feel love?
Did she find love? Was it real love?

Where's your smile today?
Did she let you try?
Try to see she didn't mean to
Make you feel so sad

Racket back street sittin' on a wall
She tells a man that she knew before it all
When she made love she tried to find love
When she gives love she will find love.

Summer's comin', time to dream the day away
And she's so sunny is the girl you met today
Will she make it? Can she take it?
Like to try love, such a shy love

Where's you smile today?
Did she let you cry?
Try to see she didn't mean to
Make you feel so sad
