Let your burden slip away
Wipe the warm tears from your face
When I'm holding you this way
It's no ordinary day
No ordinary day
Hold me close tonight
Morning seems so far away
Close your eyes and fly
In the love we share today
Tomorrow I'll be gone
Jet plane leaves at early dawn
Baby keep me warm
I really want to stay
Believe me when I say
(chorus)
I love that lovin' look in your eyes
It's much too stron to get lost in goodbyes
You'll always be the love in my life
Always, Always
When feelings run this deep
When looks can tell what lips can't speak
It's a special kind of love
It must be from above
So baby don't be blue
I'll be comming back to you
Cinderella sighs
Don't say it ain't right
Cause I'm holding you tonight
Chorus
Let your burden slip away
Wipe the warm tears from your face
When I'm holding you this way
It's no ordinary day
No ordinary day
I love that lovin' look in your eyes
It's much too stron to get lost in goodbyes
Angel, you'll always be the love in my life
Always, Always
Oh Angel, you'll always see love in my eyes
Always, Always
