Let's start a fire now
Now we have enough woods for the night
Looking at the burning sky
The memories came up
Both good and bad...

We were looking at the fire
We all knew that we were all gratified
The fire kept on burning in peace
A crescent sings very calm
To let it go... to let it go...

Counting stars on the beach
Be myself... thinking nothing but trying to be myself
Counting stars on the beach
Be myself... no one else, be myself...

The fire is almost gone
Some were still caught in the memories
We know time will ease the pain
Time will tell us where to go
Tell us where to go... tell us where to go...

Counting stars on the beach
Be myself... thinking nothing but trying to be myself

Counting stars on the beach
Be myself... no one else, be myself...

Bonfire, us and a crescent
Bonfire, us and a crescent
Bonfire, us and a crescent
Bonfire, us and a crescent, wow...
