A poor white rabbit sit on the moon alone
A lucky white rabbit sit on the moon so free
The point of view will change the
The condition without restrictions
We better be careful with the fact

So try to smile even if someone call you a hypocrite
So try to remember a sense of humor for the life

No one can stay young forever
So learn to be optimistic
It's how I want to face it
I just want to go and live with

Half a glass of water
Half a glass of water

Half a glass of water we still have
It's so much better than empty

No one can stay young forever
So learn to be optimistic
It's how I want to face it
I just want to go and live with

The attitude

Half a glass of water
Half a glass of water
Half a glass of water we still have

It's so much better than empty

Half a glass of water
Half a glass of water
Half a glass of water we still have
It's so much better than empty
