While we are all still standing here  
While we all do what we love to do  
While the history stands in silence and in peace

Let's start to make a better day  
Teach the children what we know, my friends,  
Start a fire feel the heat and see the flame!

Sitting and wondering won't change anything!  
Why don't we stand up and go, every one!  
We know that nothing is easy enough!  
And we know nothing is impossible!

Face to face and voice to voice  
Hand to hand, this world will require  
A virtual world won't give us satisfactions  
Televisions, Radios, Fashion culture magazines, are  
fun  
More than anything every one wants the heat!

We will be finding something in daily life  
A simple, boring daily life  
Trying and doing things so many times  
We won't find anything if we stop

Breaking a path through the reality!

Making a brand new holiday! A new day for this  
country!  
A dragon will be flying in the sky with you and I!  
Making a brand new holiday! A new day for this  
country!  
With a pride grown in the history! The history!

It's going to be alright, that's what the history tells...  
It's going to be alright, why don't we start today!  
It's going to be alright, that's what the history tells...  
It's going to be alright, why don't we start today!

Making a brand new holiday! A new day for this contry!  
A dragon will be flying in the sky with you and I!

Making a brand new holiday! A new day for this  
country!  
With a pride grown in the history! The history!

Power to the country, we love!  
We'll make a brand new day!
