

Paul Janz "You're Never Alone"

Visit "[You're Never Alone](#)" on MotoLyrics.com

I know
You wish you were home
And all of this night was over
When you're down and you're broke
A room couldn't get much colder
Only the lonely hearts
Know what it feels like to break apart
Well, I wish I could reach you
I really want you to know
(chorus)
You're never alone
Every hope you breathe has wings
And in harmony I'll sing
You're never alone
I'm the light before your eyes
Your vision when it fades
In your darkness I will shine

Oceans between us
Ten thousand breakers breaking
I'll come to you
In visions never fading
And you'll feel your hand strong in mine
All your loneliness I will bear
If you need inspiration
I've got so much to share
chorus
So take that heartache you're feelin'
Let it go keep believin'
You can walk through this night
And always know
That I'll be there for you
You're not alone
chorus
