I'd like to walk in a field with you  
Take my hat and my boots off too  
I'd like to lie in a field with you  
Would you like to do it too, may?  
Would you like to do it too?

I'd like to stand in a stream with you  
Roll my trousers up and not feel blue  
I'd like to wash in a stream with you  
Would you like to do it too?

You and I, country dreamer  
When there's nothing else to do  
Me, oh my, country dreamer  
Make a country dream come true

I'd like to climb up a hill with you  
Stand on top and admire the view  
I'd like to roll down a hill with you  
Would you like to do it too, may?  
Now would you like to do it too?

You and I, country dreamer  
When there's nothing else to do  
Me, oh my, country dreamer  
Make a country dream come true

I'd like to climb up a hill with you  
Take my hat and my boots off too  
I'd like to lie in a field with you  
Would you like to do it too, may?  
Would you like to do it too?  
Would you like to do it too?
