We were growing, time was going so fast  
Without knowing, we were growing up fast

We were lying down, in the shade  
I remember the love we made

We were lying down, on the bed  
I remember the tears we shared

We were growing, time was going so fast, (Growing up)  
Without knowing, (Falling down) we were growing up  
fast (Growing up, Falling down)  
(Growing up, Falling down)

We were laughing to, we were so  
I remember the fun we had  
We were crying loud, with the pain  
We will never be here again

Growing up, falling down
