Well they can treat you like a brother  
Yeah they can treat you like a clown  
But if they treat you like a lover  
They've got the sweetest little show in town  
You got the sweetest little show  
Sweetest little show  
Sweetest little show in town  
Youve been around a long time  
But you're still good for a while  
And if they try to criticise you  
Make them smile, make them smile

And if they treat you like a brother  
Well you will never let them down  
But if they treat you like a lover  
They've got the sweetest little show in town  
They got the sweetest little show  
Sweetest little show  
Sweetest little show in town

You got the sweetest little show  
Sweetest little show  
Sweetest little show in town

- guitar piece -

You got the sweetest little show  
Sweetest little show...
