Don't live in the past  
Don't hold onto something that's changing fast  
What we are, is what we are  
And what we wear is vintage clothes  
Vintage clothes, vintage clothes

We jump up for joy  
Who cares if we look like a girl or boy  
What we are is what we are  
And what we wear is vintage clothes  
Vintage clothes, vintage clothes

A little more, a little tall, check the rack  
What went out is coming back

Don't live in the past  
Don't hold on to something that's changing fast  
What we are is what we are  
And what we wear is vintage clothes  
Vintage clothes

A little more, a little tall, check the rack  
What went out is coming back
