"Keep Your Love Locked"

Visit "[Keep Your Love Locked](#)" on MotoLyrics.com

Don't stay at home when I go away

Don't waste your time with letters each day

You can have fun and see everyone that you wanna see

Just keep all your love locked deep in your heart

And don't give the key to anyone else but me

Don't miss a party, don't miss the dance

Go on a date if you get the chance

Give him your hand and I'll understand that's how it should be

But, darling, keep all your love locked deep in your heart

And don't give the key to anyone else but me

You can be waiting without being lonely

Just save your love for your one and only

I won't be mad if you don't resist

If someone else should ask for a kiss

Give him the right to kiss you goodnight if it has to be

But, darling, keep all your love locked deep in your heart

And don't give the key to anyone else but me

And don't give the key to anyone else but me
