Let's look at the evidence, boy meets girl, what do you get?

A whole lot of persons missing the fact of the matter was...

Kisses and roses and marriages over so much pain and real live action

And nobody gets to walk away, not even you babe, not even you

All I ever get to do is walk around and think of you

All I ever get to do is walk around and think of you

And all I ever wanted...

Was you

Let's look at the clues and the fingerprints on her shoes

She left them too, all over his face

All the half eaten dinners that would suggest

A passionate volcano nobody could face

No, nobody could trust themselves to place

An invitation, a simple reminder

That somebody would get hurt this time

All I ever get to do is walk around and think of you

All I ever get to do is walk around and think of you

And all I ever wanted...

Was you

This is no investigation, just a chance to clear the air

Of all the innuendos and simple bad faith

Just to find out for sure

Was it me, was it you

Tell me who's fooling who?

All I ever get to do is walk around and think of you

All I ever get to do is walk around and think of you

And all I ever wanted...

Was you
