Fall with me
Fall with me
Fall with me

Would you fall with me, tumble into lost horizons?
A long way down to the streets below
Now I'm on my way if I get an invitation
I believe but you never know

I could be happy, no doubt
I could be crunchy, that's how
Living my daydreams, you know
Dancing on tip toes, for sure

Hologram, priestess, success, I guess
Lingerie, he knows, no clothes, exposed
Victory, cocktail, telltale, no sale
Hotter than sunshine, sometime, headline

Oh, would you fall with me? We could be so happy,
baby
Would you go my way? Well, I believe you do
Would you save my life if I set my hair on fire?
Who am I? Knew if I only knew

Tumbling backwards, my love
Heavenly creatures, too much
Everything changes, they say
Fresh as a daisy, some day

Take a lone road trip, good fit, ain't it?
Send me a postcard, backyard, how far?
Genuine laughter, faster, blaster
Suddenly hit me, fit me, tipped me

Fall with me, tumble into lost horizons
A long way down to the streets below
Would you fall with me? We could be so happy, baby
Go my way, well, I believe you do

Would you save my life if I set my hair on fire?
Who am I? If I only knew
