[Chorus]

I gotta get it, I gotta grind  
I'ma put it down, I'ma get mine  
But you gotta get it, but you gotta grind  
I'ma put it down, gotta get mine

I gotta get mine, gotta, gotta get mine  
I'ma put it down, I gotta get mine  
gotta, gotta get mine, gotta, gotta get mine  
I'ma put it down, I gotta get mine

[Verse 1]

I'm on the road to success, I strive to be the best  
I never settle for less, if I'm broke I cant rest  
A hustler in the flesh, and I'm smoking on the best  
Cuz I deal with lots of stress, out here on this paper  
quest

I'm making progress, and I'm blessed oh yes  
And I'ma get it to my last dying breath, then its in  
peace I rest  
I'm working with that bread like a chef when he cook  
Now I'm back to flipping paper like I'm reading a book

Staying real with your partners that's a real good look  
But when your cash stash low all your boys get shook  
I been searching for that paper like its Natalie Holloway  
8 days a week, and I grind on holidays

There aint no excuse for these boys to be broke  
I know some hustlers in wheel chairs, we get it til we  
crook  
From south po, to south postal I gotta stack them C  
notes  
So listen up close, say I gotta get it

[Chorus]

[Verse 2]

I gotta get them dollar signs, all of every kind  
Partner, I need mine even them nickels and them  
dimes

I'm out on the grind, staying every lick I find  
Going get it myself, there aint no time to try and stand  
in line

I never fall behind, and yeah I'm full of that purple slim  
But I aint dead yet, I'm just fine  
I'm still in my prime, so I pack atleast a nine  
Cuz haters trying to block my shine, like mini blinds (I  
gotta get it)

As long as opportunity knock, I'ma get that gwop  
And give it all that I got until my coffin drop  
The sun rise I'm the first hustler on the block  
And when the sun set, I'm still out here on the clock

I'm trying to hustle for them tickets like a traffic cop  
I gotta hustle and get it partner I never stop  
I take that paper real serious like Dwight shoot  
Stacking up loot all around the 16 route

[Chorus]

[Verse 3]

I know the world in a recession, but I'm still progressing  
Take heed to my confession, never fall to oppression  
I learn from life's lesson if you keep on pressing  
You'll eventually end up on top like salad dressing

I'm never second guessing, like bye bye faith  
And however long the race gotta maintain pace  
When the haters fall to waist, then my god grant grace  
No matter what odds I face I'ma be in first place

They hustle and the haste to feed expensive taste  
But me, I got grind out there on that paper chase  
They turn they back on clements, but I'm still gon ride  
Too many fish up in the water trying to float with the  
tide

No matter how high the gas price I'm still gon drive  
Quite crying and complaining partner swallow your  
pride  
While you blaming everybody for your same bad luck  
I'ma be on the come up, sun down to sun up... I gotta  
get it

[Chorus]
