Sunny sand we ran along  
Everyday began upon  
The summer's kiss of love and adventure

And every dune that we fell into  
Left a mark upon us too  
Etched forever as a moment we remember  
And we remember

The empty woods where we play  
Every hour of every day  
The holidays went on forever

And in the woods was a soldier's tomb  
The ghost of which looked over you  
God was there amongst the trees  
Felt His whisper as the summer's breeze

And every night and every day  
I learned to love it in a special way  
As I remember what it's like  
To walk amongst butterflies, butterflies  
Flying higher, butterflies, butterflies

And in the woods was a soldier's tomb  
The ghost of which looked over you  
God was there amongst the trees  
Felt His whisper as the summer's breeze

And every night and every day  
Life touched my soul that way  
And I remember what it's like  
To walk amongst butterflies  
Butterflies, butterflies
