I only want you  
I only want you  
You're the one  
Bright star  
In my eyes

I only need you  
I only need you  
You're the one  
Bright star  
Shine for me

Without you  
I feel nothing  
My one  
Bright star  
Shine for me

I only love you  
I only love you  
You're the one  
Bright star  
In my life

I only need you  
I only need you  
You're the one  
Bright star  
Shine for me

Without you  
I feel nothing  
My love  
My star  
Shine for me
