Lets go sailing in the wild blue yonder,  
lets go sailing in the wild blue yonder,  
lets go sailing in the wild blue yonder,  
backing it up, leaving it all behind.

Lets go loving like we know we all are,  
lets go loving like we know we all are,  
lets go loving like we know we all are,  
backing it up, leaving it all behind.

While we're thinking 'bout thinking it over,  
while we're thinking 'bout thinking it over,  
while we're thinking 'bout thinking it over,  
the world has turned, another day has gone.

I wonder who I am,  
and what you really think about me.  
I wonder who you are,  
and what I really feel to you.

Lets go loving in the wild green clover,  
lets go loving in the wild green clover,  
lets go loving in the wild green clover,  
the world has turned, another day has passed.

Lets go sailing in the wild blue yonder,  
lets go sailing in the wild blue yonder,  
lets go sailing in the wild blue yonder.

Lets go sailing,  
lets go sailing,  
lets go sailing in the wild blue yonder.  
Lets go sailing in the wild blue yonder.  
Lets go sailing.
