Life at last salutations from the other side
I can see that you're the devil's pride
Do you realize that all of you donated something
horrible
You hated that is part of you
I'm your nightmares comin' true I am your crime

Life at last sit and listen while the fun begins
Hearts are broken and the bad guys win
Sit and listen all the cutting up is easy
And this isn't for the queasy or the weak of heart
You had better start for home while there's still time

I'm the evil that you created gettin' horny and damned
frustrated
Bored stiff and I want me a woman now

I'm the evil that you created gettin' horny and damned
frustrated
Each of you must stop and try me all of you might
satisfy me
