[Featuring: Randy Jackson]

All I wanna do is stay right here on the floor  
Get lost in the night  
And dance like there's no tomorrow  
Don't care about the sunrise  
Somebody please just hit the lights  
All I wanna do is dance like there's no tomorrow

Today just wasn't my day  
Everyone's getting me so fed up  
I've gotta find a way  
I know what can make me feel better  
Stepping out in my best  
Looking hotter than ever  
Wherever the party is  
That's where I'll be in a second

I'm so ready to move my body  
Forget about all my problems  
When I hear that song  
I'ma lose control  
Hey, here I go

All I wanna do is stay right here on the floor  
Get lost in the night  
And dance like there's no tomorrow  
Don't care about the sunrise  
Somebody please just hit the lights  
All I wanna do is dance like there's no tomorrow

I'm loving the atmosphere  
Feels like I'm floating in heaven  
The music's all in my ear  
Taking over me  
My heart's racing  
Feeling so Hollywood  
How I got everybody staring

Their eyes are the cameras  
And I'm loving all the attention

Get up, 'bout to move my body  
Forget about all my problems  
They're playing our song  
I'ma lose control  
Hey, here I go

All I wanna do is stay right here on the floor  
Get lost in the night  
And dance like there's no tomorrow  
Don't care about the sunrise  
Somebody please just hit the lights  
All I wanna do is dance like there's no tomorrow

Please DJ  
Don't say it's the last one  
Cause I know what it means  
And I don't want you to play no slow song  
I'm still building the nerve to talk to that guy  
Just give me another song and make it right

All I wanna do is stay right here on the floor  
Get lost in the night  
And dance like there's no tomorrow  
Don't care about the sunrise  
Somebody please just hit the lights  
All I wanna do is dance like there's no tomorrow

All I wanna do is stay right here on the floor  
Get lost in the night  
And dance like there's no tomorrow  
Don't care about the sunrise  
Somebody please just hit the lights  
All I wanna do is dance like there's no tomorrow
