Spinnin' to the sound
Like a record going 'round
Must be the music

We could be making out
But all I really want right now
Is just the music

I'm only here to dance
I'm not looking for romance
So watch me work it

I've gotta get a fix
Of my daily mega mix
So keep it groovin'

I'm just here for the music
I really didn't mean to turn you on
(On)

Boy, you know I like the way you move it
So if you wanna wait for me
I'm gonna need someone to take me home
Can you feel it? I wanna feel it

I'm diggin' on your scene
But music gets the best of me
I'm so addicted

No need to save my seat
I'm not gonna miss a beat
I wanna freak it

Your conversation's fine
But save it for some other time
Right now I'm dancing
(You're a dancing machine)

Get with this party scene
If you know what I mean
I wanna do it, do it, do it!

I'm just here for the music
I really didn't mean to turn you on
(On)

Boy, you know I like the way you move it
So if you wanna wait for me
I'm gonna need someone to take me home

I'm here, I'm just here for the music
(I'm just here for the music)
Uh, can you feel it?
Uh uh, I wanna feel it
I'm just here for the music

Music, music
I really didn't mean to turn you on
(On)

Music, music
So if you wanna wait for me
I'm gonna need someone to take me home

I'm just here for the music
I really didn't mean to turn you on
(On)

Boy, you know I like the way you move it
So if you wanna wait for me
I'm gonna need someone to take me home
