C'mon, you know you like it

Baby, I'm down to do what you want  
There's some conditions you'll have to follow  
You know that I'm not afraid to party  
So do you wanna have some fun tonight?  
You gonna have to get to know me better

Let's go where the music's pumping  
That's where I want to be  
Don't think about anything else, boy  
I'm feeling right, so just vibe with me tonight

'Cause it's all about feeling good  
You've got to free your mind  
It's so good when the music hits ya  
You don't have to try

It's all about feeling good  
You've got to ease your mind  
Baby, get into it  
'Cause it feels so right

I'm hip to the way, the way we get along  
I never thought you had it in ya  
You're trying to turn me out  
Now you think you're all that, baby

Let me show you how  
How you do it  
I know I can hold my own  
Baby, how you feeling now?

Don't trip, I'm just grooving to the music  
Just let your body flow  
Boy, come here, move a little closer  
It's all about, it's all about a good time tonight

'Cause it's all about feeling good  
You've got to free your mind  
It's so good when the music hits ya  
You don't have to try

It's all about feeling good  
You've got to ease your mind  
Baby get into it  
'Cause it feels so right

Don't trip, just groove to the music  
Let your body flow  
C'mon, move, come closer  
It's all about, it's all about tonight

It's so good when the music hits ya  
Boy, you don't have to even try  
It's all about feeling good  
You've got to ease your mind  
'Cause it feels so right

'Cause it's all about feeling good  
You've got to free your mind  
It's so good when the music hits ya  
You don't have to try

It's all about feeling good  
You've got to ease your mind  
'Cause it feels so right

It's so good when the music hits ya  
Boy, you don't have to even try  
It's all about feeling good  
You've got to ease your mind  
'Cause it feels so right

'Cause it's all about feeling good  
You've got to free your mind  
It's so good when the music hits ya
