

## Paula Abdul "Love Don't Come Easy"

Visit "[Love Don't Come Easy](#)" on MotoLyrics.com

It all went down at the cantina that she liked  
Everyone would watch her as she danced all through  
the lights  
She was the center of attraction in his mind  
Maria thought, she'd never find a man worth her time

He came into the room  
She really liked the way that he began to move  
They were in the mood for romancin'

There's a fire in little Havana  
Flame so hot you can't stand it  
Things are getting a little crazy  
Someone better tell them that

Love don't come that easy  
I know you're ready boy  
We've got to control  
All emotions that we're feeling  
Love don't come that easy  
We've gotta be strong  
We've got to stay strong

As he took her in his arms she got an instant chill  
A sense of passion she thought no one could make her  
feel  
Their bodies moved with such intensity  
The lights went down made sighs of pleasure  
Like there was no one else around

Now she's in the mood  
To show him what she wants to do to baby  
She's got him crazy

There's a fire in little Havana  
Flame so hot ya can't stand it  
Thing's are gettin' a little crazy  
Someone better tell them that

Love don't come that easy  
I know you're ready boy  
We've got to control

All emotions that we're feeling  
Love don't come that easy  
We've gotta be strong  
We've got to stay strong

Love don't come, it don't come easy  
Love don't come, it don't come easy

He came into the room  
She really liked the way that he began to move  
They were in the mood for romancin'

There's a fire in little Havana  
Flame so hot you can't stand it  
Things are getting a little crazy  
Can you feel it? Yeah  
Are you ready? Yeah

Love don't come that easy  
I know you're ready boy  
We've got to control  
All emotions that we're feeling  
Love don't come that easy  
We've gotta be strong  
We've got to stay strong

Love don't come that easy  
I know you're ready boy  
We've got to control  
All emotions that we're feeling  
Love don't come that easy  
We've gotta be strong  
We've got to stay strong

Love don't come that easy  
I know you're ready boy  
We've got to control  
All emotions that we're feeling  
Love don't come that easy  
We've gotta be strong
