When we met  
The sparkle in your eyes  
Showed me  
We were meant to be  
In love  
Sharing our fantasies

You touched me  
Then we kissed  
I could not believe  
That love was so strong  
It didn't take too long  
To learn

Love will go on and on  
Love's an everlasting bond

When I'm next to you  
Our love flows through  
I can't explain  
What you do?  
When I'm next to you  
I feel brand new  
I love you for  
All the things you do

Can't deny  
The feelings deep inside  
Our hearts and minds  
Love is alive  
It's true

I'm so into you  
I love you

When I'm next to you  
Our love flows through  
I can't explain  
What you do?  
When I'm next to you  
I feel brand new  
I love you for

All the things you do

You know when I'm all alone  
You're so far away  
I wish that you were here  
Holding me  
And I find myself thinkin'  
Of how it would be  
Knowin' you're with me

I love the way I feeling  
When I'm looking to your eyes  
I love you baby  
I love the way I feeling  
When I'm still by your side  
And I want you baby  
I need you

When I'm next to you  
Our love flows through  
I can't explain  
What you do?  
When I'm next to you  
I feel brand new  
I love you for  
All the things you do  
When I'm next to you  
Our love flows through  
I can't explain  
What you do?  
When I'm next to you  
I feel brand new
