Under the influence
Under the influence

I fell in love
When I first spot you among the crowd
Your eyes met mine
And that's when the moon started spinning around

Suddenly I couldn't breath
I felt my knees getting weak
And baby, I could not think straight
No, no, no

I had to move closer to you, talk to you
But you had left me in an altered state
And it was driving me insane

Under the influence
(Baby, you got me)
Under fascinated, intoxicated
'Cause I'm under the influence
(Oh baby, you got me)
Under the influence of you

I moved your way
It's more like gravity was steerin' my heart
(Steerin' my heart)
What can I say
(I want to be your lover, baby)
Be your lover right from the start

Had to go very slow as vertigo
Was rushin' through my body and my brain
I was mesmerized, hypnotized, to my surprise
You told me that you felt the same way
And it was driving me insane

Under the influence
(Oh baby, you got me)
Under fascinated, intoxicated
'Cause I'm under the influence
(Oh baby, you got me)

Under the influence of you

Under the influence
(Oh baby, you got me)
Under fascinated, intoxicated
'Cause I'm under the influence
Under the influence of you

Under the influence
Under the influence
Under the influence
Under the influence

I had to go very slow as vertigo
Was rushin' through my body and my brain
I was mesmerized, hypnotized, to my surprise
You told me that you felt the same way
And it was driving me insane

Under the influence
(Baby, you got me)
Under fascinated, intoxicated
'Cause I'm under the influence
Under the influence of you

Under the influence
Under fascinated, intoxicated
'Cause I'm under the influence
Under the influence of you

Under the influence
Under the influence
Under the influence
Under the influence
