I can't sleep no there's no way  
Feels like i can't get through the day  
without you without you  
I'm mess and I'm so ashamed  
Can't believe my lives this way  
without you without you

But i won't cry i won't hide  
I will survive I'll make it by  
Without you without you

I will live i will go on i thought  
I needed you but I'm strong  
without you i will  
love again  
love again  
love again  
without you i will  
love again  
love again  
love again  
without you i will  
Needed space were both to blame  
hurting this way it's insane  
with you with you

I can't quite now no i gotta fight  
Still a chance in love in this life  
without you without you  
i will run i will fly  
Made it this far I'm alright  
without you without you  
I'd admit it took sometime  
know i can see i was so blind  
with you  
now i will  
love again  
love again  
love again  
without you i will  
love again  
love again

love again  
without you i will  
love again  
love again  
love again  
without you i will

i will run i will fly  
made it this far iâ€™m alright  
without you without you  
without you
