Just like the sky
Fresh like an angel
The sun that roasts and sets upon my back
So bitter sweet, some kind of savior
All the smoke and bitter feeling through my head
But in the light of day it all gets clearer
When you see it through the rearview mirror

[Chorus]

It shakes me, turns around and wakes me up
Fade back, drop skies
What a beautiful lie
You gave me pictures of daydreams
No way, no one
Just a beautiful lie

Nothing to hold, only a promise
You were the sand that kept on falling through my
hands
A house made of cards, a state full of players
No one to trust, no ending, nowhere I could stand
But in the light of day it all gets clearer
When you see it through the rearview mirror

[Repeat Chorus]

Late at night in a dream
How you wanted me
Blowing in through the wind
Doesn't have to be
Coming in like static on the radio
Should have know but I didn't know

Like clouds in the sky
Like waves going by
I swear that I could fly
But I came crashing down
This hurt all around

It shakes me, turns around and wakes me up
Fade back, drop skies

What a beautiful lie
What a beautiful lie

What a beautiful lie
Clouds in the sky
Like waves going by
No way, no one
Just a beautiful lie
