It's very clear to me, just like it's in 3D  
When total empathy sounds like it's ringing on my  
stereo  
I'm bouncing off the wall, the way you turn me on  
I think I like this song, sounds like it's ringing on my  
stereo

Deep in the scene like the music getting fascinating  
Touching the screen like the view from my imagination  
Ninety degrees, got me circulating, I've been waiting  
impatiently  
Got me changing stations on occasion

What's your frequency? Can you connect with me?  
If it's alright, your satellite can be my energy  
Don't wanna be too bizarre but you're the key to my car  
You're my electric guitar, sounds like it's ringing on my  
stereo

It's very clear to me, just like it's in 3D  
When total empathy sounds like it's ringing on my  
stereo  
I'm bouncing off the wall, the way you turn me on  
I think I like this song, sounds like it's ringing on my

Survive the people's faces, they're dancing from  
temptation  
Her icky style is wasted, you don't need no invitation  
Hey there cutie boys, making all that noise  
It's getting hard up in here, you don't have a choice

What's your frequency? Can you connect with me?  
If it's alright, your satellite can be my energy  
Don't wanna be too bizarre but you're the key to my car  
You're my electric guitar, sounds like it's ringing on my

To get all in my stereo the chance is slim  
'Cause I get deep down and dirty AM or FM  
I, that all it took was a rose, champagne, the lights dim  
and uh  
It that many cats go all out but mamma why bother?

I there ain't 'cause I  
I must admit you got me on some  
(Ooh why? Do why?)  
Turn you on ma, I think, I  
(Do why? Should why?)

Got a lot of women but you gotta respect it  
If you ain't, I probably press the eject  
I misbehave on your airways  
Control frequencies, sexual tendencies

Specially for you and me  
True MD, I and I  
Hit me up, what?  
Pretty Willie
