yo, we just flossed this shit

word up hope you like it, word

straight, straight up
if i had headphones i'd like for you to turn them up
but i dont so fuck you

brother shaant
word up word up

and the somethings in my celing but i don't remember
buying it
i don't remember putting it there
i wonder how it even got there, anywhere

its beating the shit outta my head and its beating the
shit outta my brain
shit
beating the shit, shit, shit, shit, shit

but managing to overcome
of being upset with what i've done
it's just the beginning
and when people cant relate
i hold the mistakes
to be great

but my glass is still half full
and the sip is still a mouth full
and i cantopen mine untill i swallow
but now i am given time to plan the words thay will
follow
and they might be shallow and they might be hollow

(phone rings)
i honestly hate you, that was soo good
(hello,yeah,oh,hello,ok,yeah,yeah,whats up?,oh
yeah,'course goobbye)
(actully someones calling me as well)

yo sorry for that intruption

(my mom called)
so did so did my dad
(laughs)

use a trick trick trick trick
yo keep that, keep that, keep that going, keep, keep,
keep that going

who's to know until i let them borrow my voice to get to
you
i will tell by the look that your face will borrow from your
brain
or whatever my tone may ordaine

shit

the managing to overcome
of being upset with what i've done
it's just the beginning
and when people can't relate
i hold the mistakes i make to be great

but we got a pencil pusher up in here
when we know what to do but we know what to fear
and every time i up and down this block i find what i've
found
and maybe later, and maybe later
we can go eat ice cream

but when i find out your favourite color
favorite flavor (flava flave)
i'll fucking punch you in the face (laughs)

but managing to overcome
of being upset over with what i've done
it's just the beginning
and when people cant relate
i hold the mistakes i make to be great
i make to be great
i make to be great
i make to be great
word!

yo use a trick, trick, trick,trick
