Jane has the lips
Mary has the arms
And it's hard to resist
Lola and her charms

Sue wants to be everything to me
Yet in dreams, I always see

[CHORUS]
Mostly Martha, mostly Martha
Makes me melt like butter on toast
Mostly Martha, mostly Martha
What has she got, she's got the most

She's the she meant for me
That's for certain, that's for sure
In her spell, I can tell
She's a habit I can't cure

Other girls I have met
I can pet and then forget
But I know I will live to regret

[Repeat CHORUS]

Grace has the face
Trudy has the style
Lulubelle has a swell
Come and get it smile

Eve makes me purr
When I dance with her
She's a doll but I prefer

Mostly Martha, mostly Martha
Makes me melt like butter on toast
Mostly Martha, mostly Martha
What has she got, I only know
That she's got the most, the most
