"Girl On The Moon"

Visit "[Girl On The Moon](#)" on [MotoLyrics.com](#)

I love the way you walk on water
I love the way you move the tides
I love the way you make the clouds shine
I even love your darker side
And when I look away, I still see you

Sine on
No one in the universe can touch you
No way, no how
Shine on
No one ever looks at you like I do
No way, no how
Girl on the moon

Every time I read my horoscope
Says boy you better find your dream
Maybe I need a telescope
Or to jump on a trampoline

What do I have to do?

Sine on
No one in the universe can touch you
No way, no how
Shine on
No one ever looks at you like I do
No way, no how
Girl on the moon

Do you get lonely
