Chorus:

Breathe

Suffocation within

Because of what you're saying

To understand is to begin again

Yet to begin is to live again

I tried living my life through your eyes

Smother with your ways, to death, no breath

You're choking what little faith I have left

In time i find the truth lies inside

The truth lies, inside

Chorus

To understand is to begin again

Yet to begin is to live again

I would die to breathe again (x4)

Breath

Suffocation

I want to Breathe

Suffocation

{something goes here}

I would die to breathe again (x2)

Breathe
