Kids coming up from the alleys not like the valleys
South town San Dieto rats out here in Cali
So Cal with the crew to show 'em how
You like me now, with the sound straight underground
Puttin' it down, lift up this jewel that I have found
And pass it around, flowing against the crowd
Hip-hop hardknox rhym'n soon as the toon drops
Negative small talks, homie star kick'n rocks
And take it down the blocks where it belongs
A demo of songs but they wouldn't put me on
Thought I was gone, too late but who's to say
My pockets are empty and I got dues to pay

B-SECTION

To the tic tock you don't stop
To the tic tock you don't quit, hit it

CHORUS

Freestyle, freak with the flava its the sure shot
Floss up the Ave when the spot gets hot
Still pay'n dues and knockin' em out the box
That's how it is homie like it or not

It's bad enough late bill skeep stacking up
No one ever told me that it would cost this much
So buckle up and come along for the ride
Catchin the vibes and stayin true to my trive
I got mad love for the ones that still around
Knew you'd be down from the get-go here and now
You make me proud from the diapers to the grave
No masquarade stay the same like in the day
And one day when we all get saved
We're gonna change the world no matter what they say
And stay real playing what we feel
I'll keep prayin for you while you shoot for thrill

B-SECTION

CHORUS

It's been a long time
It's been a long time comin

Hated by many and loved by less
Hold the thresh, resurrected here in the West
Clinch the fist; dismiss the stereotype myths
Loose lips sink ships, then plead the fifth
You hated this, no reason you hated this
If you only knew you'd be the first one to enlist
We come in love cause it's just how we does
Fit the frame stayin the same as it ever was

CHORUS
