

Payable On Death "Wildfire"

Visit "[Wildfire](#)" on [MotoLyrics.com](#)

Come and give me that wildfire
The uncivilized sound that i love
The primitive ragga blaze style
Consciousness vibes I and I know
The ultimate flame that i desire
Me want uncultivated Jah glow
Foolish intensity, versatile
Fly the spirt high, take me higher

Chorus:

One leads with the passion
The righteous will burn again
One bleeds everlasting
Tribal fire will never end
(Repeat)

I want to feel the wildfire
Irregular burning of the sun
Shining through make you spit fire
Savage combustion, let it go
Impetuous fervor testifier
Outlandish passions I know
Crucial rhythems no denial
Musical nation, empire
