[Chorus] Mr. Sancho (Fingazz)  
You are my baby girl(my baby girl)  
You are my everything(my everything)  
You are my baby girl(my baby girl)  
You are my everything (my baby girl)

[Verse 1](Payaso)  
You know your my baby girl  
Even gangsters need love in this crazy world  
Everyday out late on these streets  
I still come home to you creep between the sheets  
I put away my heat and lay down by your side  
After we make love its back to the south side  
Thats right we're like bonnie and claude  
So stay close by as I dip my lowride  
I got so much pride because your my lady  
And unlike them other groupies who act all shady  
And maybe one day soon I'll make you my wife  
Cause lovin a gangster is a way of life

[Chorus]  
You are my baby girl(my baby girl)  
You are my everything(my everything)  
You are my baby girl(my baby girl)  
You are my everything (my baby girl)

[Verse 2]  
I know your parents dont want me around  
Cause I'm a thug from the wrong side of town  
Baby girl my love is true and I'll do anything to stay with  
you  
I dont care about those other girls  
Your all I need in this whole wide world  
You should know your my everything  
You get me through all the stress and pain  
In the rain you make the sunshine through  
Take away the clouds and make the sky blue  
Its still the same girl in my same dreams  
The same one who taught a gangster what love means

[Chorus]

You are my baby girl(my baby girl)  
You are my everything(my everything)  
You are my baby girl(my baby girl)  
You are my everything (my baby girl)

[Verse 3]

I never thought that this love would last  
Just thinking about the past  
At last you took a chance on me  
It'll always be the girl of my dreams  
And it seems this could last forever  
Through any season through any weather  
I remember when I took your hand  
I know right there that I was your man  
Even though that our lifes have changed  
The love we had will still remain  
Its still the same girl in my same dreams  
The same one that tought a gangster what love means

[Chorus]

You are my baby girl(my baby girl)  
You are my everything(my everything)  
You are my baby girl(my baby girl)  
You are my everything (my baby girl)
