Boy know your place
Lies do not become us
Real is more attractive
Than a slick and polished mask

Girl dig down deep
I know there's more between us
There's bound to be a question
You're just dying for me to ask

If you can be honest, I can be too
If you'll take the first step
I'll follow you through

But no one wants to bleed
No one wants to hide
No one wants to hurt alone inside

Child don't close your eyes
The truth contains much beauty
And though it scars your soul
It can heal the wounds it makes

You've been deceived to think
That pain is to be dreaded
And you've got nothing left
It'll give more than it takes

If you can't find a peace
I'll help find it for you
I don't know how
But one thing that's sure
Is I won't leave you now

If you can be honest, I can be too
If you take the first step
I'll follow you through

No one wants to bleed
No one wants to hide
No one wants to hurt alone inside
