Hush now baby don't you stress  
I'm gonna fill you mommy complex  
Hush now baby don't you stress  
I'm gonna fill you mommy complex

Flyin on over that coo coo's nest  
Comin up to sing like I was main west  
Legs like you but I'm simple the best  
Call me robert baby baby baby be my guest.  
Slide right down on my medicine chest  
Got the cure if you love cats feelin depressed  
Qualified to baptise you'll be blessed  
No guilt when u takin out your sunday best  
Oh yes, just one request  
If you bring flowers I like babys breath

Hush now baby don't you stress  
I'm gonna fill you mommy complex  
Hush now baby don't you stress  
I'm gonna fill you mommy complex  
Hush now baby don't you stress  
I'm gonna fill you mommy complex  
Hush now baby don't you stress  
I'm gonna fill you mommy complex

Oh yes  
Oh yes

I'm just wonder you zippers broke  
Mother rolled you over like a monster truck  
Are you pregnant and I say good luck  
Combo sisection tummy tuck

While your under the gas  
Get you backs on up  
So I can bust a brown cherry cheese popcorn puff  
One more I get your bone enlarged  
Cuz mommy wants to ride the top  
Nipple to the bottle you satisfied  
Huddled on the floor, it'll make you cry  
Don't speak don't think don't ask why

Don't every leave mommy  
Don't say goodbye

Hush now baby don't you stress  
I'm gonna fill you mommy complex  
Hush now baby don't you stress  
I'm gonna fill you mommy complex  
Hush now baby don't you stress  
I'm gonna fill you mommy complex  
Hush now baby don't you stress  
I'm gonna fill you mommy complex  
Hush now baby don't you stress  
I'm gonna fill you mommy complex  
Hush now baby don't you stress  
I'm gonna fill you mommy complex  
Hush now baby don't you stress  
I'm gonna fill you mommy complex  
Hush now baby don't you stress  
I'm gonna fill you mommy complex

Oh it's as old school as mee  
Woo  
I'm gonna send you back to school  
What playing this in my dress
