gonna whip this party into shape
gonna whip this party into shape
gonna make my move its gettin late
gonna make my move its gettin late

gonna cut this party down to size
gonna cut this party down to size
gonna make this party come alive
gonna go and crush it with my thighs

seems you got a little bit more than you asked for
seems you got a little bit more than you asked for
seems you got a little bit more than you asked for
seems you got a little bit more than you asked for

Its about that time you need to know
let me shake it off so we can go
