I got to the Hilton full throttle, full on
Choke the bottle and I take it strong
Come a little closer, can you hear my thong?
What's the matter boy, I say something wrong?

Take my pulse and add insult
Smoke a little cigarette and join my call
I get results doin' somer, somersaults
Think you got the combination, crack that vault

No votes, chest coast
I'm the virus, you're the host

Relax, slip in the cracks
I'll take you to another place, we're makin' contact
Relax, slip in the cracks
I'll take you to another place you never wanna come
back

I'm the real sea's velvetine
Just press start on my main machine
Site on scene another Halloween
Strip sixteen on my mosiclean

Bam, bam, bam, that how the party begin
Wham, wham, wham, it's all a part of the plan
Takin' stand bringin' the glam shizam
I'm a wonder woman

Ground floor, French door
One more, whatchu waiting for?

Relax, slip in the cracks
I'll take you to another place, we're makin' contact
Relax, slip in the cracks
I'll take you to another place you never wanna come
back

Ooh, try a little harder
Ooh, try a little harder
Ooh, try a little harder
Ooh, try a little harder

Sweet sweat gland, come and take my hand
Sink in the sand to my holy land
Bring on the chaos, the sauce galore
I pour it on thick then I pour some more

Bam, bam, bam, that how the party began
Wham, wham, wham, it's all a part of the damn
Takin' stand bringin' the glam shizam
I'm a wonder woman

Relax, slip in the cracks
I'll take you to another place, we're makin' contact
Relax, slip in the cracks
I'll take you to another place you never wanna come
back

Relax, slip in the cracks
I'll take you to another place, we're makin' contact
Relax, slip in the cracks
I'll take you to another place you never wanna come
back

No votes, chest coast
I'm the virus, you're the host
Ground floor, French door
One more, whatchu waiting for?

Ooh, try a little harder
Ooh, try a little harder
Ooh, try a little harder
Ooh, try a little harder
