Who's got the brain of JFK?  
What's it mean to us now? Yeah?  
Oh, it's sound insurance  
But I can tell you, this is no lie

The whole world will be different soon  
The whole world will be relieving (2x)

You, you've been taught  
We'd been the same, now they got you in line  
Stand behind the stripes  
There will be order, so give it a good mind

The whole world will be different soon  
The whole world will be relieving (2x)

And by name  
The name they gave me  
The name I'm letting go

The whole world will be different soon  
The whole world will be relieving (3x)  
The whole world will be different soon, soon
