### "1/2 Full"

Visit "[1/2 Full](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Climbing on a mountain  
Floating out on the sea  
Far from lights of a city  
The elements they speak to me

Whispering that life  
Existed long before breed  
Balancing the world  
On its knee

Don't see some men as 1/2 empty  
See them 1/2 full of shit  
Thinking that we're all but slaves  
There's ain't gonna be

No middle anymore  
It's been said before  
The haves be having more  
Yet still bored

Won't someone save?  
Won't someone save  
The world?
